ACCIDENT TO THE PHILADELPHIA TRAIN. -At a late hour last night, intelligence reached us that as the train approached the Hackensack Bridge the locomotive struck against some cows that were lying or standing on the track. The fireman's leg was broken and he was otherwise badly injured. The three baggage cars were thrown into the ditch, and smashed. None of the passenger cars were upset, nor was any injury received by any other person. Owing to this accident, the Southern Mail had not arrived up to the hour of going to

Topics of the Morning.

We publish this morning the Address of Kossuth to the people of the United States. This is the document to which we had occasion to refer some six months ago in defending the character of the Hungarian war of independence, and from which we then gave a brief extract. It was written in March, 1850, while its author was at Broussa, and we believe was brought to this country by Dr. Frank Taylor, who visited Kossuth after his removal to Asia Minor. Its publication has been delayed by direction of Gov. Ujhazi, in order not to complicate and hinder the negotiations for the release of the fugitives. That motive no longer existing, it is now presented to the public. It is proper, perhaps, to say, that this translation is made, as we understand, from the German version; and that the point and eloquence of the original Mayar must have been diminished in the process of twice translating. Still, enough of both remains.

A merchant tailor of Warsaw, named Michaelowski, obtained from the Russian Government permission to go to Paris en business, stipulating formally not to go to London. The temptation of seeing the Crystal Palace, however, proved too strong for him, and he went in spite of his promise. On his return to Warsaw, he was sent for by Gen. Abramowitch, the Chief of Police, who knew his sion, and punished for it by being flogged The Causes of Johnston's Defeat.

When a matter has gone wrong, there is not much use in undertaking to show how it might and should have been otherwise. "If your uncle had been your aunt" there's no telling what changes would have been consequent upon this one-and not much use in telling. We were inclined, therefore. to let this Pennsylvania Result pass off as easily as possible, and not participate in angry and fruitless discussions about that which is irrevocable. But the Whig journevmen of the victors are not content to enjoy their triumph in silence. They are out with executive proclamations of prowess and its fruits. 'A Bigler Whig' writes from Pottsville to the Courier and Enquirer exulting in the success of the secret intrigues by which WILLIAM F. JOHNSTON has by Whig exertions and votes been defeated. The Editor of the Courier and Enquirer approves and glories in the deed. 'A Bigler Whig ' proclaims that Mr. Webster or any Whig of his stamp can carry Pennylvania next year. As such assertions, uncontradicted, might encourage delusive hopes and lead to mistaken calculations, it seems necessary to give a hearing to the other side of the story. There is no doubt, we understand, of the fact that Webster Whiggery has been potential in securing Bigler's election; but there is serious doubt of the readiness of the great mass of the Whigs of Pennsylvania to lick the hand which so fearfully smote them. As evidence on this point, we quote the following articles from the Harrisburg Whig journals which reached us by a late mail. There is a bluntness in their way of talking which City-bred people must excuse in the speech of inhabitants of 'the Rural Districts,' where the polite art of cutting throats with a feather has not been adequately cultivated. We print exactly as we find. The following is from the Harrisburg American: NOT BEATEN BUT BETRAYED-WHO DEFEATED

GOV. JOHNSTON

A EEW CALM WORDS TO THE WHIGS OF PENNYLVANIA.

The result of Tuesday's election will greatly surprise the honest Whigs of Pennsylvania. All the indications of victory were with us. All the issues of the campaign were in our favor. We had a leader whose previous administration had been faultless. That leader worked faithfully in the canvass—was well received by the people, and made a good impression upon the people. The true friends of Gov. Johnston were active, and all that men could honestly do was done to procure his election. In this they were sustained by many of the other party who were sustained by many of the other party who were sustained by many of the other party who were sustained with his stewardship, and were opposed to a change. Why then was he defeated! This is an important question, to which the attention of the Whig party may well be invited. Why, with such a leader, with such issues, with such arguments, with such efforts, and with such an organization, was Gov. Johnston defeated! The organization, was Gov. Johnston defeated The answer is plain. Gov. Johnson was overthrown in answer is plain. Gov. Johnson was overthrown in this contest, not by the efforts of the Loco-Foco party, but by the secret though effective treachery of professed Whigs—men, too, in the interest and favor of the present National Administration. This is the truth and we mean that the people shall know it.

The Pennsylvanian of October 15th, in announcing the result of the election, uses the following significant laneage.

cant language:
"Aided by a number of National Whigs, who won
be whipped in, in this locality, we have won a victor
we may wear as one of our most brilliant and most out

This exposes the game which was played. "National Whigs," as they are called, have aided the Loco-Focos and defeated the great Whig party of this state. And who are these "National Whigs."—They are men who wish to introduce a new test of party fidelity—to forget all old principles and to sacrifice all men who will not agree to surrender the freedom of speech at the tyrannical bidding of a resulthor.

neighbor.

In 1848 the Whig National Convention nominated Zachary Taylor and Millard Fillmore as the standard-bearers of the Whig party in that contest. The nomination of Gen. Taylor was effected after a severe struggle. Wm. F. Johnston was a member of that struggle. Wm. F. Johnston was a momber of that Convention. It was at his suggestion that the Penn-sylvania Delegation cast their votes for Miliard Fili-more. In consequence of that nomination Mr. Fili-more was elected Vice-President, and in conse-quence of that election he is now the President of the United States. After the Convention adjourned in ISIS, Wm. F. Johnston became the Whig candi-date for Governor of this State. He canvassed the State with verticing industry and it was due to his date for Governor of this State. He canvassed the State with untiring industry, and it was due to his efforts mainly that Pennsylvania voted for Gen Taylor and Millard Fillmore, and thereby made them the President and Vice-President of the United States. How does Mr. Fillmore requite these efforts! We will tell the public. Mr. Fillmore, we believe, is not personally hostife to Gov. Johnston. We believe he is too honest a man utterly to forsake and seek to ruin the men and party to whom he owes his present place. But we do know that he retains in his Cabinet a man who has publicly, and within the limits of our own State, expressed on earnest hope that Governor. net a man who has publicly, and within the limits of our own State, expressed an earnest hope that Governor Johnston would be defeated. This is an undoubted fact, and is within the knowledge of many of the best citizens of Pennsylvania. Daniel Webster is the man who has thus deserted the Whig party of its nonimes. We say this with regret, but we know it to be true, and we wish the people of the State to understand that through the hostility of men like Mr. Webster, the Whig party of Pennsylvania is now in a mimority. Mr. Fillmore is and was aware of this hostility. How far, therefore, he is responsible for the result of these schemes, we leave a can-

hid public to judge.
Mr. Webster has had his agents and wire-workers in different parts of the State. They were generally men of but little character, who could never have accomplished their object had they not taken the precaution to conceal their bitter hatred under the garb of extreme friendship. They were hypocritical as well as treacherous. We will leave these men to their reflections and to the area and ust punishment. as well as treacherous. We will leave these me their reflections, and to the sure and just punish which certainly awaits them. We trust that their reflections, and to the sure and just punishment which certainly awaits them. We trust that Mr. Cooper and his numerous and tricky confederates will feet amply rewarded if our defeat now should defeat the party throughout the Union in the Presidential contest next year, and paralyze us in this State for a long time to come. The vote of Philadelphia, Schuylkill, Northampton and other counties where these assassins resided, shows their fidelity to the men honored with the confidence of the Whig party of the State. In one ward in Harrisburg, where most of the traitors lived and have sympathizers, fifteen Whig trickets were voted in which Gov. Johnston's name was erased and Mr. Bigler's substituted. In another ward and an adjoining townshap, the same course was pursued. And elsewhere in the State where the same influence reached, the same result followed.

We, therefore, wish the Whigs of Pennsylvania to understand that this State has fallen into the hands of the Opposition, because the National Administration, and most of its special friends, determined that Gov. Johnston must be defeated and the Whig party sacrificed that large numbers of Loco-Pooos—there being nimeteen in one ward of Harrisburg—roted for Gov. Johnston, that this vote was more than overbalanced by defection in the Whig ranks; that this defection was owing to the intrigues of certain members of the Cabinet and their assistants in this

this defection was owing to the intrigues of certain members of the Cabinet and their assistants in this State that Gov. Johnston, if the entire Whig party had been true, would have been elected by an overwhelming majority and that Gov. Johnston was defeated by the most shameless and infamous treachers.

We make these remarks because the occasion demands they should be made. While every friend of the State Administration will cherish in his heart of hearts those trusty and honest Whigs who were true as steel to their standard-bearer, every honest man will as heartily detest the ignoble and dastardly traitors who were afraid of an open field and a fair fight, and who proved their courage by stabbing in the dark. All honor to Gov. Johnston: He stands before the people, an honest man stricken down by before the people, an honest man stricken down by men who owe their positions to his labors.

- The Pennsylvania Statesman of the same date (16th) has the following:

JOHNSTON IN SCHUYLKILL - The majority given to or. It is clear that the Loco-Focos here, when they said that they were advised to bet on it by Mr. Cooper, knew their man. A letter dated Pottsville, Oct. 10, published in The Philadelphia Ledger of Wednesday, the 15th, says that "At a Democratic meeting heid on Thursday last, Mr. COOPER received three hearth cheers."

This is easily understood. No one will pretend to say that Mr. Cooper was sheered at a Loco-Foco meeting for supporting the Whig ticket, or Whig - Let us keep cool and think awhile. There is no use now in getting into a pas-

The Washington Republic states that an official dispatch has been received from Mr. Barstate Idated Aug. 2. Santa Rita del Cobre, in which he says he has received proof of the existence of a body of men in New-Mexico who pretend to issue licenses to the Indians on the Gila to trade in (t. e.) o plunder mules and even human captives.

The dispatch gives some interesting details concerning the discussion with the Apache chiefs, on the occasion of the homicide of one of the tribe by a Mexican muleteer. They finally concluded to accept for the mother of the slain brave the sum of \$30 thenfoue to the murderer, and \$20 a month from his future wages. This completely restored the good understanding that existed between the Apaches and the Commission previous to the murder.

Violent Storm-Two Horrible Murders!

BOSTON, Oct. 19, 1851. A violent north-east storm set in last night, about 12 o'clock, and continued up to noon to-day. Trees were blown down in the city and vicinity, signs awnings, &c. The pilot-boat Coquette ran into the brig Georgiana, off Nantucket, and received considerable damage. She subsequently attempted to come up to the city, but her sails were blown off, and she finally grounded on the Flats at South Boston. The Georgiana suffered no damage. A small schooner also struck at Point Shirley. We can learn no further damage.

A horrible murder was perpetrated this afternoon about 5 o'clock, in Charter-st., at the North-end James Davis, a rigger, employed in the Navy Yard at Charlestown, killed his sister by cutting her throat with his razor. After he had inflicted the fatal wound, he seized his victim and tore out her windpipe with his hand, and otherwise horribly mutilated her body. Miss Davis is represented to have been a very beautiful and amiable girl, and was to have been married shortly to a gentleman to whom she has been for sometime engaged. Her age was about 23. Davis is about 36, and has lately returned from

California. It is stated that delirium tremens was the cause of the act, though there is a report that he was violently opposed to his sister's contemplated marriage. The tragedy causes much excitement in our Davis has been arrested.

Six or eight witnesses were examined. They implicate Mr. Davis and Mr. Salmon, of Oswego Co-but their testimony had very little bearing on the other prisoners.

At noon Mr. Lawrence declared that the evidence

on the part of the prosecution was closed, and the Court adjourned till 2 P. M. Mr. D. B. Hillis, counsel for the prisoners, stated that the defense would not, at present, offer any evi-

dence.

The Judge took until Monday morning, at 10 o'clock, to consider the case.

It is said there are more arrests to be made, and there is no doubt that they will be all bound over.

The Court-house was densely crowded during the day. Several ladies from Syracuse, dressed in Bloomer costume, made their appearance is the Court-house. We understand that one of them was the wife of Moses Sumner, one of the prisoners.

This afternoon the Bloomers promenaded our streets, escorted by gentlemen.

The ware-pullers of both political parties are at work in good earnest. The Democrats are imbued with renewed vigor, owing to the news from Pennsylvania and Ohio. In the 1st District of this county, they, to-day, nominated George Graham, of Oriskany, for the Assembly. There is to be a grand raily of the Democrats of the county at Rome, on Thursday, the 23d.

New ORLEARS, Friday, Oct. 17th, 1851.
The Yucatan papers of October 3, announce that the war with the Indianshad nearly drawn to a close, and that an 'ecclesiastical commission had been sent to negotiate a treaty of peace with the rebels, who, so far, had proved victorious in every engagement.

Fatal Accident---Fire.

ROCHESTER, Saturday, Oct. 18th, 1851.

The youngest son of Justice Bardwell, of this city, was accidentally killed this afternoon. He fell between the wheels of a heavily laden wagon, and one wheel passed over his chest, producing injuries from the effects of which he died in a short time. A fire occurred this morning on Joiner street, which consumed three dwellings. The loss was not great

A row of twelve brick dwellings in Front-st., in the lower part of the city, was burned down this morning at 3 o'clock. No doubt the work of an incendiary, as fire was set in three places.

Fire at East Cambridge. A block of five wooden dwellings in East Cambridge, occupied by Irish families, was burned down this morning, together with a stable and three valuable houses. The buildings belonged to Mr. Buckley. Loss about \$4 000 Loss about \$4,000.

CITY ITEMS.

Le See Third Page of this morning's Edition for City

The fair weather came to a disagreeable termination on Saturday night, when a cold and htful northeast storm came upon the City with great violence, and continued until Sunday noon. The wind was a full gale and the rain came down with equinoctial profusion, greatly to the discomfort of the thousands who are necessarily out of doors on the last night of the week. Sunday was partially storm and mist, with fair glimses of sunshine; yet withal a disagreeable day. We are shocked to hear, upon his own confession, that our Item brother of The Times has not for a long season been able to see so much fair weather "soberly." His unfortunate condition is respectfully submitted to the Second Ward Temperance Alliance.

We know of no man who, in his sphere, has more zealously and disinterestedly labored for others than Mr. L. R. Breisach, of this City. During the past two years Mr. Breisach's efforts in behalf of his countrymen, the Hungarian exiles brought to our shores, have been as incessant as they have been useful to those unfortunate persons. It is this fact which stimulates us to say a passing word in the hope to advance his interests in his profession, that of a teacher of the German language, and we do it the more heartily because we know that those who may take advantage of his instructions will not regret it. Though a Hungarian by birth, Mr. Breisach is of German origin, and speaks that language with purity and correctness.

Sizdmore, Secretary We are glad to observe that the idea advanced in The Tribune of shortening the entertainment by doing away with the literary exercises has been adopted with great unanimity. The next Festival will be on the eve of Franklin's Birthday, Friday, Jan. 16, probably at Niblo's. We are also informed that the Society is about making some extensive and valuable additions to their library, a Committee being at present engaged in selecting books.

NEW CATHOLIC CHURCH.-The cornerstone of a new Catholic Church, which is about to e erected in Yorkville, will be laid by his Grace the Most Rev. Archbishop Hughes, on Monday, (today,) at 3 o'clock P. M. The Harlem Railroad cars will leave City Hall at 14 P. M., and also the Yorkville, and Harlem line of stages will be in readiness at the same hour, stopping at Eighty-sixth-st., York-

GREAT TEMPERANCE MEETING .- OVER ,000 persons attended the meetings held last evening at the corner of Chatham Square and Division street. Three meetings were in operation at the same time

FIFTH WARD EVENING SCHOOL.-This fine school, under the care of Mr. Store, is held in the Public School House No. 10, in Duane-st. near Church, and has filled up since our last visit, there being many more pupils in regular attendance. The corps of teachers is efficient and the pupils seem to feel great interest in feceiving the fullest benefits of this mode of education. The attendance is 203-with six teachers. Young men down town should avail themselves of this school as a very desirable place to spend their leisure evenings.

MILITARY FUNERALS .- Lieut. Divver, of the Volunteers, and John Tucker, of the Lafayette Fusileers, were buried vesterday

Eighth Ward Evening School.-We alled on Friday evening at this School, held in Clarke-st., where we found a large number of pupils in attendance. The Girls' department is under care of Miss Farnham, Principal, with five assistant teachers. The attendance varies from 250 to 280 and the progress made by the pupils is truly gratifying. The Boys' department, under the carefof Elias this, The Boys department, under the execution, with five assistants, and an attendance of over 250 pupils, appeared extremely well, and the evidences of disci-pline and progress were very decided.

NEW MAIL ARRANGEMENT BETWEEN NEW-YORK AND BOSTON .- The Boston Traveller says "The Postmaster of this city and the Directors of the Boston and Worcester Railroad have established an important arrangement for the transmission of letters with certainty and dispatch, which cannot fail to be appreciated, not only by the merchants of this city and of all the great cities North and South, but by all foreign and California correspondents. On and after Monday next there will be two land mails each day, by the great express U. S. mail route for New-York via Springfield and New-Haven, arriving at New-York at 4 P. M. and 11; P. M., and the same arrangement has been made for two daily land mails, to arrive in this city at 5 P. M. and 11; P. M., from New-York, so that hereafter reliance can be placed New-York so that hereafter reliance can be placed on all letters put into the Boston or New-York of fices before 2 o'clock P. M., of the certainty of their arriving in each city in season to be assorted, and distributed by all the early morning mails. The steamboat mail will go by Stonington, as heretofore."

LAST WEEK OF THE GREAT FAIR AT CAS-TLE GARDEN.-Those who have not witnessed this, the richest of the twenty-four held by the American Institute, must embrace the coming week for that purpose. At 5 P. M. on Monday, Mons Marllefait will make a demonstration on Diamond Rock, by the explosion of three discharges of 125 lbs. of powder each. This operation may be safely and favorably newed from Castle Garden. The model of the yacht America, by Steers, should attract some attention. It occurres a constitution discattle of the safely and the safely and the safely are safely as the safely tention . it occupies a position directly over the tro-phy Cup won by the vessel which his genius origi-

with the name of Professor Bronson, we have taken pains to make some inquiries of persons who have the best chance to judge, and from the report of their testimony have concluded that there is more than meets the eye in the Prefessor's announcement, when one comes fairly to see through it. Mr. C. C. Wright, No. 52 John-st., stated a year ago in our paper, that he had received much benefit. He is an eagraver, and his sight was so much injured that he could not work at his business. He is now able to follow his occupation, and is engaged upon dies for a gold medal which the Professor's Eye-Patients are getting up for him. Mr. George W. Reid, superintent dent of the Russ pavement, has been relieved from short sight. Mr. C. H. Brown, of the Merchants' Bank, is another example of successful treatment in this line. Charles C. Stevens, No. 303 Pearl-st., has received much relief for near sight. C. B. Hulsart. No. 39 Hester-st., was nearly blind in one eye, and the other was badly affected. He had almost de spaired of retaining ever the little sight thus left, but after the Professor's treatment he improved, so that he can now read, without glasses, type much smaller than this. An elderly gentleman in White-st., has been relieved from spectacles after using them a long time. Mrs. F. Whitaker, No. 66 Amity-st., who had used glasses for 30 years, has been so far cured as to do without them. Mrs. Dempsey, No. 169 Allenst., we are told, was led to the Professor's office, not being able to see her way alone. She had been under the care of several oculists, but was not relieved, having severe inflammation, and a film growing over her eyes. Her cure is a striking in. stance, and fully establishes the value of the treatment of Professor B. A child of Mrs. Newman, in the Bowery, No. 381, had lost the sight of one eye. and was in bad health. Her perfect restoration to sight and health is a remarkable case indeed. We have not space to detail the particulars of the cases, but any one who feels an interest in any on of them can be fully assured of the facts by calling upon the persons named. These are but a small portion of the cases in which the Professor's penhar treatment has been emmently successful. in Boston, Worcester, Springfield, Hartford, New Hiven, Trenton, Philadelphia, and places of less not, as well as this City, his fame is well known, and persons of the highest respectability have testified to his success. We may mention Dr. Steeling, of Philadelphia, who had used spectacles for twenty years, and had been obliged to give up reading at night . he was relieved from glasses after four weeks treatment, and is able to read the finest print. Mrs. Mary M. Randall, of Keene, N. H., had a swelling and rupture in one eye, and supposed that she could not be cured, but after a few weeks' treatment she was entirely relieved. Dr. Bronson says that he cured and restored the short and long sight of nearly TWO THOUSAND PETSORS, from February, 1848, to September, 1849; and out of the whole number attempt ed, who were reasonably faithful, there are not twenty failures, and these were on account of organic diseases, though many others succeeded, to whom little or no encouragement was given; but resolution, self-exertion and perseverance, have wrought wonders. Notwithstanding these results and the perfect harmony of the principles, with all that is known of Optics, many will not be convinced that such things can be accomplished , they say that too much is promised; the news is too good to be-We cannot doubt the truth of these state ments, after the evidence which we have here indicated. Those who are subject to afflictions of the eyes will need no further comment to induce them o assure themselves by a personal interview with the Professor, whose office is denoted by an advertisement on the first page of this paper.

REDEMPTION FROM SPECTACLES .- Hav.

IF N. C. Everett, Esq., positively declines being a candidate for Police Justice in the Second District. Nevertheless, his friends appear to be determined to vote for him.

XVIth WARD .- Our readers will find an interesting political advertisement relating to this Ward on the first page of this paper. We are not personally cognizant of the facts in question, but all the attention of our readers to this statement. It is at least a protest against our outrageous system of primary elections. Let the citizens of the Ward, and especially the mechanics and laboring men of

all parties, look at it. SUB-MARINE OPERATIONS ON DIAMOND REEF.-This afternoon, at twelve minutes past 5 P.M., (weather permitting,) Mons. Maillefert will fire two sub-marine chagres, of 125 lbs. each, on Diamond Reef, in the harbor of New-York. This Reef is situated between the Battery and Governor's Island; it is about 80 feet long, and about 40 feet wide, and has but 12 feet water upon it at extreme low tide. A red flag will be displayed from the iron life boat containing the battery, as a signal of pretife boat containing the battery, as a signal of pre-paration, and a moment before the charge is fired by the electric spark, Mons. Mailtefert will raise a white handkerchief that the spectators may know precisely the instant they may look for the explo-sion. A full view of these beautiful operations may be had from the Battery, Castle Garden, Governor's Island, the U. S. Barge office wharf, and Brooklyn Heights. It was expected that these charges would have been fired on Saturday, but the tide was too early to afford men of business the opportunity of witnessing this mode of sub-marine blasting.

The Citizens and Voters of the Tenth Ward meet in the Basement of Allen-street Methodist Church, above Delancy-st., on Monday (this) evening, at 7 o'clock, to form the Tenth Ward

Temperance Alliance. It has been stated in a Milwaukee paper that Messrs. Bangs, Brother & Co., of New-York, had taken a contract to complete a canal in lowa. We notice this in order to say that the house which has taken this contract is not the great bookselling house in Park-row-they have quite enough to do in attending to the internal improvements of

their own business. THE EIGHTEENTH-ST. MISSION SCHOOL AT TEMPERANCE HALL, CORNER OF EIGHTH-AV .- This school, which has been open every Sabbath for the past eighteen months, is in a flourishing condition The average attendance is over 160, with a register of 223 pupils. The improvement in the appearance and manners of the children was most gratifying Mr. Tousley, the Superintendent, with Rev. Mr. Huntington, deserve great praise for their devotion to the interests of this neglected class of children. The teachers seem to feel the utmost interest in the progress of their pupils. Singing is taught gratis, and the improvement in this class of exercises is truly remarkable, and gives evidence of faithfulness and capacity in all concerned. The attendance vester day was 138, with eleven teachers.

THE FALL ARRANGEMENT OF THE N. J. RAILBOAD provides for a train leaving every hour from Newark to New-York during the day. from 6 A. M. to 7 P. M., except 6 P. M.; the 5 P. M. train is postponed to 51, inorder to meet the 5 P.M Philadelphia, and the way train of the same hour from New-York, so as to cause no interruption. Besides the above hourly trains from Newark, there are 74, 84, and 104 A. M., and 84 P.M. trains, and the night lines leaving Newark on alternate evenmgs, either at 8i or 11 P.M.
